Introduction

This publication presents 2005 potato estimates of acreage, yield per acre, production, farm disposition, season average price, value, and utilization of sales including processing with historic comparisons. Also included are first of the month stocks of potatoes (December through June) for the 13 major fall potato producing States. Monthly prices, farm marketings, varieties of fall potatoes, percent of acreage planted by type, certified seed acres, objective yield results, and size and grade are also included for selected States. Production, disposition, and value data for Alaska are shown separately.

These estimates are based on information furnished by crop reporters, processors, and cooperating State or Federal Agencies. The various sources include: Market News Service rail and truck shipments, Federal-State inspections, and miscellaneous data available through marketing programs.

Price estimates represent average returns to growers for all uses and for all methods of sale, including the value paid for a government diversion program. These prices are applied to total production to compute value of production and to the quantity sold to compute value of sales. Some unsold potatoes contribute to the value of production, including farm use for seed, feed, home use, and loss. The United States season average price is obtained by weighting State prices by quantities sold.

Potato production, utilization, and value of sales in each State have been classified by seasonal group according to the period (quarter) when the largest supplies are harvested.

The four seasonal groups are as follows:

Season	Usual Time of Harvest
Winter	January through March
Spring	April through June
Summer	July to Mid-September
Fall	September through November

A crop year is associated with the calendar year in which harvest is accomplished. Seasons are not fixed dates but are approximations because of overlapping of harvest before or after the specified season. Generally, the marketing season closely follows harvest except for fall potatoes when marketing from storage may extend through August of the following year. Thus, the marketing year for fall potatoes is from the start of harvest through August of the following year.

2005 Potato Production Up 1 Percent

Total 2005 potato production is estimated at 424 million cwt, up 1 percent from the estimate made in the January Annual Crop Summary but 7 percent below the 2004 crop. Harvested area, at 1.09 million acres, decreased 7 percent from a year ago. This is the lowest harvested acres on record since the series began in 1866. The average yield of 390 cwt per acre is down 1 cwt from the record high set in 2004 but 23 cwt above the average yield from the 2003 crop.

Seasonal estimates are carried forward from earlier revisions. Winter potato production in 2005 is 4.89 million cwt, an increase of 2 percent from 2004. Harvested area, at 19,800 acres, is up 7 percent from the previous year. The average yield of 247 cwt per acre is down 13 cwt from 2004. Spring potatoes final estimate for 2005, at 18.7 million cwt, decreased 17 percent from the previous year. Harvested acres, at 66,700, are down 8 percent from 2004 and a record low. The average yield of 281 cwt per acre is 33 cwt below the record high set in 2004. Summer potato production is 17.6 million cwt for 2005, down 4 percent from 2004. Harvested area, at 51,400 acres, is down 5 percent from the previous year and a record low. The average yield of 342 cwt per acre is a record high, 2 cwt above the previous record high set in 2004. Fall potatoes are finalized at 383 million cwt for 2005, down 7 percent from the 2004 crop. Area harvested in 2005 is estimated at 949,000 acres, down 7 percent from a year earlier. The average yield, at 403 cwt per acre, is a record high, 2 cwt above the previous record high set in 2004.

The value of all potatoes sold in 2005 is estimated at \$2.76 billion, up 18 percent from the previous year. The average price, at \$7.06 per cwt, is up \$1.40 from a year earlier. Sales from the 2005 potato crop totaled 391 million cwt, down 6 percent from 2004. Sales account for 92 percent of 2005 production. Non-sales account for 33.3 million cwt, 21 percent below the previous year. Over the past five years, 92 percent of the potatoes grown have been sold. The other 8 percent were either lost (shrinkage and loss) or used on farms where grown (seed, home use, and livestock feed).

Processors used 246 million cwt of raw potatoes from the 2005 crop, down 5 percent from a year earlier. Table stock sales totaled 120 million cwt, 8 percent below the previous year. Seed sales of 22.3 million cwt are down 3 percent from 2004. Sales for livestock feed, at 2.00 million cwt, are up 3 percent from a year earlier.

Potatoes used for chips and shoestrings totaled 51.0 million cwt in 2005, up 2 percent from the previous year. Frozen french fries and other frozen products utilized 148 million cwt of raw potatoes, down 4 percent. Potatoes used for dehydrating totaled 42.3 million cwt, 13 percent below 2004. Canning use, at 3.05 million cwt, fell 20 percent. Starch, flour, and other products were made from 1.58 million cwt of potatoes, 3 percent above the previous year.

Shrinkage and loss is estimated at 28.5 million cwt for 2005, down 24 percent from 2004. Potatoes used for livestock feed on farms where grown and home use totaled 1.19 million cwt, 1 percent below the previous season. Growers kept 3.60 million cwt for seed on their own farms, virtually unchanged from a year earlier.

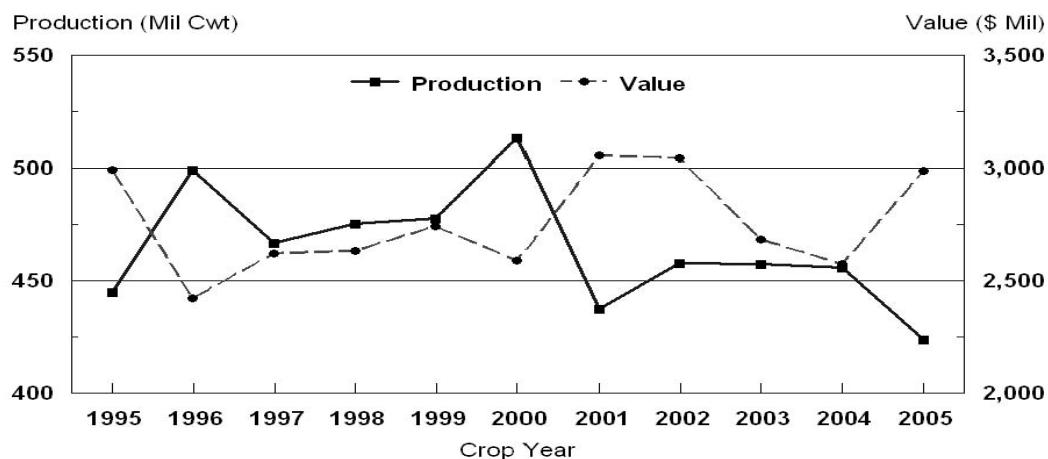

Potatoes: Utilization of Crops, United States, 2002-2005

¹ Stocks are defined as the quantity (whether sold or not) remaining in storage for all purposes and uses, including seed potatoes that are not yet moved, and shrinkage, waste, and other losses that occur after the date of each estimate.

² 13 fall storage States for 2005.

³ Missing stocks combined into "Other Sts" to avoid disclosure of individual operations.

⁴ Revised.

⁵ Stock estimates discontinued in 2005.

Fall Potatoes: Percent of Varieties Planted, 2004-2005

The National Agricultural Statistics Service conducts variety surveys in 8 States, accounting for 89 percent of the U.S. fall potato production for both the 2004 and 2005 crops. Colorado data are from a growers potato variety survey. The remaining 7 States conduct objective yield surveys where all producing areas are sampled in proportion to planted acreage. Variety data are actual percentages from these surveys.

¹ Data supplied by State seed certification officials.

2005 Potato Objective Yield Survey

The National Agricultural Statistics Service conducted potato objective yield surveys in the 7 major fall producing States in 2005. These 7 States account for 83 percent of the fall potato production. Sample plots were located in potato fields that were selected on a random basis using a scientifically designed sampling procedure. Field workers recorded counts and measurements. Survey data from the objective yield counts are presented in the following two tables and are provided to show information about the crop and trends in production.

Potatoes: Harvest Loss by Type, Seven Objective Yield States, 2004-2005^{1,2}

State	Crop Year	Reds	Whites	Russets	All Types

¹ Based on row measurements and counts in potato fields selected for objective yield samples.

Potato Size and Grade

Size and grade measurements came from potatoes harvested in the objective yield survey sample plots. Potatoes were harvested from six hills per sample randomly selected in each State using a scientifically designed sampling procedure. Potatoes were sent to laboratories for sizing and grading according to accepted U.S. fresh grading standards. The following tables contain percent measurements as they actually occurred.

Grading Categories of Potatoes¹

Type and State	No. 1 2 Inch Minimum ²		No. 2 or Processing Usable 1 1/2 Inch Minimum ³		Cull ⁴		Total

Information Contacts

Listed below are the commodity specialists in the Crops Branch of the National Agricultural Statistics Service to contact for additional information.

Jeff Geuder, Chief (202) 720-2127

Field Crops Section

Greg Thessen, Head	(202) 720-2127
Shiela Corley - Cotton, Cotton Ginnings	(202) 720-5944
Scott Cox - Wheat, Rye	(202) 720-8068
Ty Kalaus - Corn, Proso Millet, Flaxseed	(202) 720-9526
Dennis Koong - Peanuts, Rice	(202) 720-7688
Travis Thorson - Soybeans, Sunflower, Other Oilseeds	(202) 720-7369
Travis Thorson - Hay, Oats, Sorghum	(202) 690-3234
Brian Young - Crop Weather, Barley, Sugar Crops	(202) 720-7621

Fruit, Vegetable & Special Crops Section

Jim Smith, Head	(202) 720-2127
Leslie Colburn - Berries, Grapes, Maple Syrup, Tobacco	(202) 720-7235
Debbie Flippin - Fresh and Processing Vegetables, Onions, Strawberries	(202) 720-2157
Rich Holcomb - Citrus, Tropical Fruits	(202) 720-5412
Doug Marousek - Floriculture, Nursery, Nuts	(202) 720-4215
Dan Norris - Austrian Winter Peas, Dry Edible Peas, Lentils, Mint, Mushrooms, Peaches, Pears, Wrinkled Seed Peas	(202) 720-3250
Jim Smith - Apples, Apricots, Cherries, Cranberries, Plums, Prunes	(202) 720-2127
Kim Ritchie - Hops	(360) 902-1940
Cathy Scherrer - Dry Beans, Potatoes, Sweet Potatoes	(202) 720-4285

ACCESS TO REPORTS!!

For your convenience, there are several ways to obtain NASS reports, data products, and services:

INTERNET ACCESS

All NASS reports are available free of charge on the worldwide Internet. For access, connect to the Internet and go to the NASS Home Page at: www.nass.usda.gov.

E-MAIL SUBSCRIPTION

All NASS reports are available by subscription free of charge direct to your e-mail address. Starting with the NASS Home Page at www.nass.usda.gov, under the right navigation, *Receive reports by Email*, click on **National** or **State**. Follow the instructions on the screen.

PRINTED REPORTS OR DATA PRODUCTS

CALL OUR TOLL-FREE ORDER DESK: 800-999-6779 (U.S. and Canada)
Other areas, please call 703-605-6220 FAX: 703-605-6900
(Visa, MasterCard, check, or money order acceptable for payment.)

ASSISTANCE

For **assistance** with general agricultural statistics or further information about NASS or its products or services, contact the **Agricultural Statistics Hotline** at **800-727-9540**, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

USDA Data Users' Meeting

October 16, 2006

**Doubletree Chicago O'Hare Airport - Rosemont
Chicago, Illinois
(847) 292-9100**

The USDA's National Agricultural Statistics Service will be organizing an open forum for data users. The purpose will be to provide updates on pending changes in the various statistical and information programs and seek comments and input from data users. Other USDA agencies to be represented will include the Agricultural Marketing Service, the Economic Research Service, the Foreign Agricultural Service, and World Agricultural Outlook Board. The Foreign Trade Division from the Census Bureau will also be included in the meeting.

For registration details or additional information for the Data Users' Meeting, see the NASS homepage at www.nass.usda.gov/forum/ or contact Amy Jenkins (NASS) at (202) 690-8141 or at amy_jenkins@nass.usda.gov.

This Data Users' Meeting precedes an Industry Outlook meeting that will be held at the same location on October 17, 2006. The Outlook meeting brings together analysts from various commodity sectors to discuss the outlook situation. For more information about the outlook meeting and to register contact Jim Robb (Livestock and Marketing Information Center) at (720) 544-2941 or at robb@lmic.info.
