Introduction

This publication presents 2006 potato estimates of acreage, yield per acre, production, farm disposition, season average price, value, and utilization of sales including processing with historic comparisons. Also included are first of the month stocks of potatoes (December through June) for the 13 major fall potato producing States. Monthly prices, farm marketings, varieties of fall potatoes, percent of acreage planted by type, certified seed acres, objective yield results, and size and grade are also included for selected States. Production, disposition, and value data for Alaska are shown separately.

These estimates are based on information furnished by crop reporters, processors, and cooperating State or Federal Agencies. The various sources include: Market News Service rail and truck shipments, Federal-State inspections, and miscellaneous data available through marketing programs.

Price estimates represent average returns to growers for all uses and for all methods of sale, including the value paid for a government diversion program. These prices are applied to total production to compute value of production and to the quantity sold to compute value of sales. Some unsold potatoes contribute to the value of production, including farm use for seed, feed, home use, and loss. The United States season average price is obtained by weighting State prices by quantities sold.

Potato production, utilization, and value of sales in each State have been classified by seasonal group according to the period (quarter) when the largest supplies are harvested.

The four seasonal groups are as follows:

Season	Usual Time of Harvest
Winter	January through March
Spring	April through June
Summer	July to Mid-September
Fall	September through November

A crop year is associated with the calendar year in which harvest is accomplished. Seasons are not fixed dates but are approximations because of overlapping of harvest before or after the specified season. Generally, the marketing season closely follows harvest except for fall potatoes when marketing from storage may extend through August of the following year. Thus, the marketing year for fall potatoes is from the start of harvest through August of the following year.

2006 Potato Production Up 4 Percent

Total 2006 potato production is estimated at 441 million cwt, up 2 percent from the estimate made in the January *Crop Production 2006 Summary* and 4 percent above the 2005 crop. Harvested area, at 1.12 million acres, increased 3 percent from the record low set a year ago. The average yield of 393 cwt per acre is a record high, up 3 cwt from 2005 and 2 cwt above the previous record high set in 2003.

Seasonal estimates are carried forward from earlier revisions. Winter potato production in 2006 is 4.50 million cwt, a decline of 8 percent from 2005. Harvested area, at 17,500 acres, is down 12 percent from the previous year. The average yield of 257 cwt per acre is up 10 cwt from 2005. Spring potatoes final estimate for 2006, at 19.8 million cwt, increased 6 percent from the previous year. Harvested acres, at 67,500, are up 1 percent from the record low set in 2005. The average yield of 293 cwt per acre is 12 cwt above the 2005 crop. Summer potato production is 18.2 million cwt for 2006, up 3 percent from 2005. Harvested area, at 53,900 acres, is up 5 percent from the record low set the previous year. The average yield of 337 cwt per acre is 5 cwt below the record high set in 2005. Fall potatoes are finalized at 399 million cwt for 2006, up 4 percent from the 2005 crop. Area harvested in 2006 is estimated at 983,000 acres, up 4 percent from a year earlier. The average yield, at 406 cwt per acre, is a record high, 3 cwt above the previous record high set in 2005.

The value of all potatoes sold in 2006 is estimated at \$2.98 billion, up 8 percent from the previous year. The average price, at \$7.33 per cwt, is up \$0.27 from a year earlier. Sales from the 2006 potato crop totaled 407 million cwt, up 4 percent from 2005. Sales account for 92 percent of 2006 production. Non-sales account for 34.6 million cwt, 4 percent above the previous year. Over the past five years, 92 percent of the potatoes grown have been sold. The other 8 percent were either lost (shrinkage and loss) or used on farms where grown (seed, home use, and livestock feed).

Processors used 280 million cwt of raw potatoes from the 2006 crop, up 14 percent from a year earlier. Table stock sales totaled 101 million cwt, 16 percent below the previous year. Seed sales of 23.7 million cwt are up 6 percent from 2005. Sales for livestock feed, at 1.66 million cwt, are down 17 percent from a year earlier.

Potatoes used for chips and shoestrings totaled 67.0 million cwt in 2006, up 31 percent from the previous year. Frozen french fries and other frozen products utilized 154 million cwt of raw potatoes, up 4 percent. Potatoes used for dehydrating totaled 54.6 million cwt, 29 percent above 2005. Canning use, at 3.00 million cwt, dropped 2 percent. Starch, flour, and other products were made from 1.10 million cwt of potatoes, 31 percent below the previous year.

Shrinkage and loss is estimated at 29.9 million cwt for 2006, up 5 percent from 2005. Potatoes used for livestock feed on farms where grown and home use totaled 1.24 million cwt, 3 percent above the previous season. Growers kept 3.50 million cwt for seed on their own farms, down 3 percent from a year earlier.

Fall Potatoes: Percent of Varieties Planted, 2005-2006

The National Agricultural Statistics Service conducts variety surveys in 8 States, accounting for 89 percent of the U.S. fall potato production for both the 2005 and 2006 crops. Colorado data are from a growers potato variety survey. The remaining 7 States conduct objective yield surveys where all producing areas are sampled in proportion to planted acreage. Variety data are actual percentages from these surveys.

Potato Objective Yield Data

The National Agricultural Statistics Service conducted potato objective yield surveys in the 7 major fall producing States in 2006. These 7 States account for 83 percent of the fall potato production. Sample plots were located in potato fields that were selected on a random basis using a scientifically designed sampling procedure. Field workers recorded counts and measurements. Survey data from the objective yield counts are presented in the following two tables and are provided to show information about the crop and trends in production.

Fall Potatoes: Harvest Loss by Type, Seven Objective Yield States, 2005-2006^{1,2}

State	Crop Year	Reds	Whites	Russets	All Types

¹ Based on row measurements and counts in potato fields selected for objective yield samples.

Potato Size and Grade

Size and grade measurements came from potatoes harvested in the objective yield survey sample plots. Potatoes were harvested from six hills per sample randomly selected in each State using a scientifically designed sampling procedure. Potatoes were sent to laboratories for sizing and grading according to accepted U.S. fresh grading standards. The following tables contain percent measurements as they actually occurred.

**Fall Potatoes: Grading Categories by Type and State,
2005-2006¹**

Type and State	No. 1 2 Inch Minimum ²		No. 2 or Processing Usable 1 1/2 Inch Minimum ³		Cull ⁴		Total	
	2005	2006	2005	2006	2005	2006	2005	2006

Information Contacts

Listed below are the commodity statisticians in the Crops Branch of the National Agricultural Statistics Service to contact for additional information.

Jeff Geuder, Chief(202) 720-2127

Field Crops Section

Greg Thessen, Head(202) 720-2127
Shiela Corley - Cotton, Cotton Ginnings(202) 720-5944
Todd Ballard - Wheat, Rye(202) 720-8068
Ty Kalaus - Corn, Proso Millet, Flaxseed(202) 720-9526
Greg Thessen - Peanuts, Rice(202) 720-2127
Travis Thorson - Soybeans, Sunflower, Other Oilseeds(202) 720-7369
King Whetstone - Hay, Oats, Sorghum(202) 690-3234
Dawn Keen - Crop Weather, Barley, Sugar Crops(202) 720-7621

Fruits, Vegetables & Special Crops Section

Lance Honig, Head(202) 720-2127
Leslie Colburn - Berries, Grapes, Maple Syrup, Tobacco(202) 720-7235
Debbie Flippin - Fresh and Processing Vegetables, Onions,
Strawberries(202) 720-2157
Rich Holcomb - Citrus, Tropical Fruits(202) 720-5412
Doug Marousek - Floriculture, Nursery, Tree Nuts(202) 720-4215
Dan Norris - Austrian Winter Peas, Dry Edible Peas, Lentils,
Mint, Mushrooms, Peaches, Pears,
Wrinkled Seed Peas(202) 720-3250
Faye Propsom- Apples, Apricots, Cherries, Cranberries,
Plums, Prunes(202) 720-4288
Kim Ritchie – Hops(360) 902-1940
Cathy Scherrer - Dry Beans, Potatoes, Sweet Potatoes(202) 720-4285

ACCESS TO REPORTS!!

For your convenience, there are several ways to obtain NASS reports, data products, and services:

INTERNET ACCESS

All NASS reports are available free of charge on the worldwide Internet. For access, connect to the Internet and go to the NASS Home Page at: www.nass.usda.gov.

E-MAIL SUBSCRIPTION

All NASS reports are available by subscription free of charge direct to your e-mail address. Starting with the NASS Home Page at www.nass.usda.gov, under the right navigation, *Receive reports by Email*, click on **National** or **State**. Follow the instructions on the screen.

PRINTED REPORTS OR DATA PRODUCTS

CALL OUR TOLL-FREE ORDER DESK: 800-999-6779 (U.S. and Canada)
Other areas, please call 703-605-6220 FAX: 703-605-6900
(Visa, MasterCard, check, or money order acceptable for payment.)

ASSISTANCE

For **assistance** with general agricultural statistics or further information about NASS or its products or services, contact the **Agricultural Statistics Hotline** at **800-727-9540**, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

USDA Data Users' Meeting

October 29, 2007

Crowne Plaza Chicago O'Hare
Rosemont, Illinois
(847) 671-6350

The USDA's National Agricultural Statistics Service will be organizing an open forum for data users. The purpose will be to provide updates on pending changes in the various statistical and information programs and seek comments and input from data users. Other USDA agencies to be represented will include the Agricultural Marketing Service, the Economic Research Service, the Foreign Agricultural Service, and World Agricultural Outlook Board. The Foreign Trade Division from the Census Bureau will also be included in the meeting.

For registration details or additional information for the Data Users' Meeting, see the NASS homepage at www.nass.usda.gov/forum/ or contact Marjorie Taylor (NASS) at (202) 690-8141 or at marjorie_taylor@nass.usda.gov.

This Data Users' Meeting precedes an Industry Outlook meeting that will be held at the same location on October 30, 2007. The Outlook meeting brings together analysts from various commodity sectors to discuss the outlook situation. For registration details or additional information for the Industry Outlook Meeting see the Livestock and Marketing Information Center (LMIC) homepage at www.lmic.info or contact Jim Robb at (720) 544-2941 or at robb@lmic.info.
